PROGRAMME
GROUPS IN GALWAY 2005

Department of Mathematics,
National University of Ireland, Galway
12–14 May 2005

All talks were held in the Dillon lecture theatre.

Thursday 12th

2:15–2:30	Opening address by Professor Seán Tobin
2:30–3:15	**John McDermott (NUIG)** *On theorems of Higman and Wielandt*
3:15–4:00	**Rachel Quinlan (UCD)** *p-Groups and spaces of alternating bilinear forms*
4:00–4:30	Coffee/tea
4:30–5:15	**Tom Laffey (UCD)** *Jordan forms in small characteristic*
5:15–6:00	**Stewart Stonehewer** *Some new results on quasinormal subgroups*

Friday 13th

10:00–10:45	**Francesco de Giovanni** *Groups with few normalizer subgroups*
11:00–11:45	**Geoff Smith** *Cyclizers and a question of Peter Cameron*
11:45–12:15	Coffee/tea

12:15–1:00	**Warwick de Launey** *Group actions on Paley matrices*
1:00–2:30	Lunch
2:30–3:15	**Luise-Charlotte Kappe** *Variations on a theme of Desmond MacHale*
3:15–4:00	**Des MacHale** *Some supersolvability conditions for finite groups*
4:00–4:30	Coffee/tea
4:30–5:15	**Colin Campbell** *The Fibonacci lengths of binary polyhedral groups and related groups*
5:15–6:00	**Bob Morse** *Advances in computing the nonabelian tensor square of polycyclic groups*

Saturday 14th

10:00–10:45	**Alla Detinko** *Locally nilpotent linear groups*
10:45–11:30	**Hermann Heineken** *Groups all of whose cyclic subgroups are p-groups*
11:30–12:00	Coffee/tea
12:00–12:45	**Rex Dark** *Two problems in group theory*
